**RE: Calle Sur: Latin Collage at the University of Southern Indiana**

Dear Karin and Ed:

We are writing to formally thank you for coming to the University of Southern Indiana during International Week 2007. The goal of International Week is to promote cross-cultural exchange and education, as well as global awareness. Your wonderful performance helped us to achieve this goal. The many people who attended your Wednesday, February 21<sup>st</sup> program were treated to an evening of education, music, and fun. You challenged the audience to recognize the diversity of Latin cultures around the world and to look past physical features. Your selection of music was great as it gave a chance for us to hear some new instruments and songs while hearing some more widely recognized pieces. Everyone who attended your program could see the passion that you had for what you do.

Thank you again for your magnificent performance. We would be happy to serve as a reference to your artistic and performance skills.

Sincerely,

A handwritten signature in black ink, appearing to read 'Heidi', is written over a faint, illegible typed name.

Heidi Gregori-Gahan  
Director
